Trees	Wet Site	Dry Site	Drought Tolerant	Light	Ever-green	Mature Size	Special Interest	Sale Size	Price	Quantity Ordered
Carolina Silver Bell (<i>Halesia tetraptera</i>) A medium sized tree that will grow in some shade. White to pale pink flowers on pendulous stalks in April.	Moist			Full sun to part shade		30 -40' x 20 – 35'	Native plant in the Southeast. Interesting bark with long fissures of gray, brown, and black.	3 gal	\$20	
Cypress Carolina Sapphire (<i>Cupressus arizonica</i> 'Carolina Sapphire') A silvery-blue evergreen juniper with a medium growth rate and a loosely pyramidal shape.		X	Prefers dry sites	Full Sun	Yes	40 – 50' x 25 – 30'	Nice variety to add some color to the landscape. Native to the Southwestern U.S.	3 gal	\$17	
Old Man's Beard (<i>Chionanthus virginicus</i> 'Spring Fleecing') Male cultivar of a native slow growing small tree/large shrub with fragrant, white, long petaled flowers in early summer.	Moist			Sun to part shade		10' x 10'	Found natively on stream banks and borders of swamps. Yellow fall color. Flowers at an early age.	7 gal	\$40	
Eastern Redbud (<i>Cercis Canadensis</i> 'Hearts of Gold') Newer introduction to the nursery trade. A small tree with bright golden foliage that doesn't burn in full sun. Lavender flowers in early spring.	Moist	X	Somewhat	Sun to part shade		15' x 18'	Grows up to 10' in first 5 years. More shade it gets the greener the foliage becomes. Native to Eastern U.S.. Plant Patent 17740	3 gal	\$35	

Trees	Wet Site	Dry Site	Drought Tolerant	Light	Ever-green	Mature Size	Special Interest	Sale Size	Price	Quantity Ordered
Maidenhair (<i>Ginkgo biloba</i> 'Saratoga') A slow to medium growth rate on this male cultivar. Brilliant gold fall color on this large tree. Prefers deep, sandy, moderately moist soils.	Moist		Somewhat	Full Sun		40' x 30'	Not the prettiest of small trees, becoming majestic with age. Large tree that is tolerant of many situations.	5 gal	\$35	
Kousa Dogwood (<i>Cornus kousa</i> 'Satomi') A Pink flowering dogwood. Kousa dogwoods bloom about 2 weeks after the native dogwoods.		X	More than native dogwoods	Sun to light shade		25' x 25'	Prefers moist soils, but is adaptable to dry conditions. Fruit is ½ to 1 inch red globe	5 gal	\$30	

Shrubs										
Purple Pixie Loropetalum (<i>Loropetalum chinensis</i> 'Purple Pixie') This new variety of Loropetalum is a low growing variety with burgundy leaves and showy pink flowers.	Moist		Once established	Sun to medium shade	Yes	12 – 18" x 3'	Prefers acidic soils like azaleas. Prefers high organic matter soils. Makes a good ground cover.	3 gal	\$25	
Holly Tea Olive, False Holly (<i>Osmanthus heterophyllus</i> 'Goshiki') Beautiful evergreen shrub with interest throughout the seasons. Holly-like leaves with a slow growth rate.		X		Sun to part shade	Yes	4' – 8' x 4'	New growth emerges pink and matures to green leaves with white and cream flecks	3 gal	\$20	
Kaleidoscope Abelia (<i>Abelia x grandiflora</i> 'Kaleidoscope') This little gem of a plant provides color year round. White flowers appear summer to fall attracting bees and butterflies.	Prefer s moist		Once established	Sun to part shade	Yes	2 – 3' x 3 – 4'	The name kaleidoscope comes from the many colors on the leaves that keep changing from season to season.	3 gal	\$15	
Summer Sweet or Sweet Pepperbush (<i>Clethra alnifolia</i> 'Hummingbird') A compact, deciduous shrub for the home gardener. White, fragrant flowers appear June to July. Black-green leaves turn yellow in the fall.		X	Moderately	Part shade to sun		30 – 40" x 36"	This native plant spreads by underground stems and should be planted in an area where it can spread.	3 gal	\$15	
Pink Anise tree (<i>Illicium</i> 'Woodland Ruby') This hybrid plant has fragrant foliage (licorice odor) and fragrant ruby red flowers that bloom late spring to early summer		X		Part shade to sun	Yes	8 – 10' x 6 – 8'	Can be a nice specimen plant or a great addition to a mixed border of screening plants. Parts of this plant are poisonous if eaten.	3 gal	\$12	
Crepe Myrtle (<i>Lagerstroemia</i> 'Cherry Dazzle') A dwarf crepe myrtle with cherry red flowers. Remove old flowers to get repeat blooms until fall.			X	Very		Full sun	3 – 5' x 3 – 5'	This versatile plant can be used as a ground cover, a specimen or in a container.	3 gal	\$20
Cleyera (<i>Ternstroemia gymnanthera</i> 'Variegata') Glossy green and white variegated foliage. Creamy colored flowers in late spring and red fruit in fall.				Shade to part shade	Yes	10' x 5'	Makes a nice screening plant in a shaded location or a nice specimen plant.	3 gal	\$17	
Double Knock Out Rose (<i>Rosa Radtko</i>) A beautiful red, double flowered rose with great disease resistance. Will flower from spring until fall frost.				Full sun		4' x 4'	This is the rose for gardeners that love roses but don't like all the work that comes with them.	3 gal	\$20	
Butterfly Bush (<i>Buddleia davidii</i> 'Lo & Behold Blue Chip') A great low growing butterfly bush that was bred at NCSU. Powder blue flowers from July until frost.			Yes	Full sun	Semi	24 – 36" x 30"	Great for containers as an accent on the patio. Can also be used as a ground cover in sunny areas.	3 gal	\$17
